DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed has web address that are hyperlinks to the web cite and these cannot be printed on the face of the patent which then later maybe used as a hyperlink. Applicant may submit these address in a form that is not considered to be a hyperlink.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 14, 20, and 23-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Schiler (3175820).

Schiler discloses a support apparatus having a support member (72) with a base member having an upright member (73), a board rest member (75) and an attachment member (74a, the attachment member is inserted into anything that has a smaller diameter threaded or not).

In regard to the method, the method is merely the natural way of using the apparatus.

Allowable Subject Matter

3. Claims 4-13, 15-19, 21-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bejtlich, Sisko et al, and Baud disclose an invention.
